Spend Wisely for a Better Community

By Ossie Bladine, Associate Publisher

Despite many years as a journalist, I often still find myself double checking the subtle differences in certain words. For instance, if one wants to best support their local economy, should they be conscientious, conscious or conscience? In this case, it's actually all three at once:

A conscientious consumer is one who is conscious of the benefits of shopping locally and lets his or her conscience decide to spend money in a manner that benefits the community.

No matter how you present it, any "Shop Local" campaign is driven by the same basic elements:

- Spending locally maintains and multiplies consumer dollars in our economy.
- Those businesses create local jobs and contribute to local causes; they pay local taxes and diversify the lifestyle of our communities.
- Local businesses provide immediate service; they save us time and money otherwise spent searching – often unsuccessfully – for some out-of-area bargain.

As it has for many years, the News-Register's annual "Best of Mac and the Yamhill Valley" magazine is a celebration of those time-honored economic and community principles.

Our "Best of" contest represents about 100 News-Register Community Partners businesses along with many other participating advertisers. Many have earned bragging rights this year by being voted as "favorites" in a local survey. However, every business included in this publication is the favorite for many residents and visitors alike. Browse for your old favorites, and find some new favorites.

Of course, we want your focus to be on the businesses within this publication and in our twice-a-week community newspaper, as they choose to spend their marketing dollars locally while simultaneously supporting local, independent journalism. But more than that, this publication is presented to encourage locals to always be conscientious, be conscious and to use their conscience while spending their dollars.

We hope you will keep this 2024 "Best of" as a year-round reminder to do even more to support these and other Yamhill County businesses that serve so many community needs.

The comforts of home combine with design features specifically intended to enhance the quality of life for individuals with a diagnosis of a dementia, including Alzheimers.

Quality of Life Through Quality Care

The challenges and losses that accompany dementia are many. The life provided by our skilled and loving staff strives to break down those challenges. Our goal is to create a life of potential and peace, lessening the challenges and loss.

Potential of Life Through Activities

We believe that every individual has potential – of one sort or another – until life ends. We find the potential in each person, design activities and moments to match that potential, and continually assess the change in potential so that we are meeting the needs of each individual.

Security in Life by Design

While our highest priority is the safety, security and well-being of each resident, we realize emergencies can and do happen at any time. With that in mind, we designed and equipped our building with a state-of-the-art Nurse Call System featuring Real Time Locating and Mapping.
