FIRST - We pledge to work collaboratively and to reduce special interest influence over our legislative process.

SECOND - We will work to increase transparency in government, especially with regard to how our tax dollars are spent.

THIRD - We will work to protect Oregon consumers, especially with respect to banks, insurance companies and private utilities.

FINALLY - We will provide incentives for businesses to expand in Oregon and ensure that these incentives return more benefit to the public than they cost.

A CONTRACT *for* OREGON

Within the first 14 days of the next legislative session, the Independent Party will introduce the following legislation:

★ **THE TRUTH IN CAMPAIGN ADVERTISING ACT**

Requires that political advertisements disclose their main sources of funding.

★ **TRANSPARENCY & ACCOUNTABILITY IN GOVERNMENT ACT**

Ensures that public money invested in private enterprise happens through an open and transparent process, and establishes a refund mechanism when obligations are not met.

★ **CONSUMER & SMALL BUSINESS PROTECTION ACT**

Ends the exemption for insurance companies from the state's unlawful trade practices act. The insurance industry is the only industry in Oregon that is exempt from this law.

★ **OREGON BUSINESS RETENTION & EXPANSION ACT**

Provides tax incentives for small businesses that engage in capital construction for the purpose of hiring new workers.
