## Friendship- An Activity of Daily Living!

**M**arjorie House Memory Care Community provides person-centered long term care in a safe, secure, caring environment for individuals with a diagnosis of a dementia. The comforts of home combine with design features specifically intended to enhance the quality of life for individuals with a diagnosis of a dementia, including Alzheimer's.

### Quality of Life Through Quality Care

The challenges and losses that accompany dementia are many. The life provided by our skilled and loving staff strives to break down those challenges. Our goal is to create a life of potential and peace, lessening the challenges and loss.

### Potential of Life Through Activities

We believe that every individual has potential – of one sort or another – until life ends. We find the potential in each person, design activities and moments to match that potential, and continually assess the change in potential so that we are meeting the needs of each individual.

### Security in Life by Design

While our highest priority is the safety, security and well-being of each resident, we realize emergencies can and do happen at any time. With that in mind, we designed and equipped our building with a state-of-the-art Nurse Call System featuring Real Time Locating and Mapping.
